## POET JOAQUIN MILLER IS NEAR DEATH

### END IN 24 HOURS, SAY DOCTORS

Aged Poet of Sierra Is Fast Sinking at His Home on 'The Heights'

Suffers Dangerous Sinking Spell This Morning and Physician Is Called

JOAQUIN MILLER, the far-famed Poet of the Sierra, is dying. He has been unconscious for five days and his condition this morning was such that the end may come within twenty-four hours.

Dr. J. S. Stout, the attending physician, made the following statement at noon today:

"Mr. Miller is slowly sinking. The end may come within twenty-four or forty-eight hours; it is hard to say. With his tenacity upon life it may even be a question of several days. He has been unconscious since last Thursday."

The celebrated poet is at his beloved Arcady, a pastoral hut on the Fruitvale "heights" overlooking the busy workers in the cities below him. He is attended only by his wife and by his daughter Juanita. For the past six weeks he has been unable to leave his bed and has been gradually wasting away, kept alive only by the extraordinary vitality and fire which characterized his entire life.

#### RALLIES ON CHRISTMAS.

Surrounded by a few intimate friends the poet rallied his energies enough on Christmas day to sing quaint old English carols. Ever since then the hand of relentless fate has been clutching at his mantle with a firmer hold each day.

The end is coming just as Miller has often expressed a wish that it should. When, twenty years ago, he settled in his little cabin on the "Heights," he penned these significant lines:

Be this my home till some fair star  
Stoops earthward and shall beckon me;  
For surely God-land lies not far  
From these Greek heights and this great  
sea.

My friend, my love, trend this way:  
Not far along lies Arcady.

#### LIKED NATURE'S COMPANY.

Until age began to tell upon him, Joaquin Miller devoted most of his spare moments on time "Heights" to the planting of forest trees and the development of orchards and flowers. He liked to be in the company of nature, and the child-like blandness that came upon him in recent years intensified his love of the flowers and the stars.

His home at Fruitvale, where with his own hands he has constructed his mausoleum, has been the mecca for thousands of people from all over the world who have worshipped at the shrine of the last of California's immortal three—Bret Harte, Mark Twain and Miller.

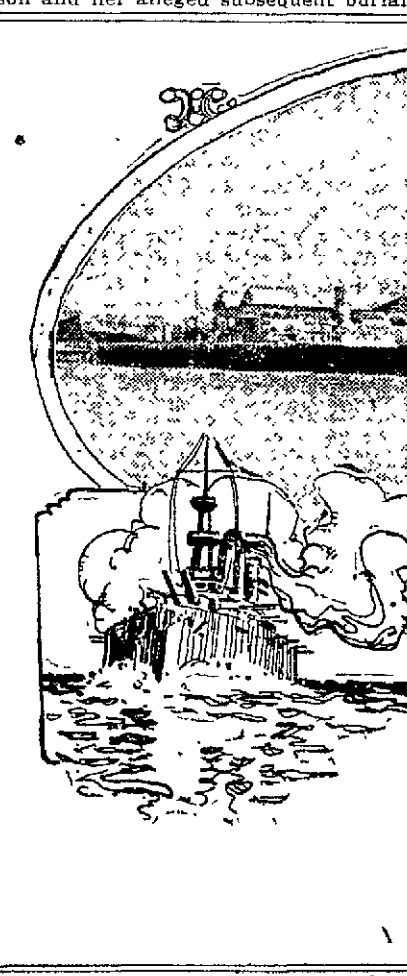

Shortly after 11 o'clock this morning the poet suffered another sinking spell and his daughter hurried into Oakland to get assistance. Dr. Stout left at once in an automobile.

The poet's age is uncertain, he himself professing not to be sure. He is about 71 years of age.

### TAFT REPLIES TO MADERO THAT ACTION IS INTENDED AS 'NATURAL PRECAUTION'

WASHINGTON, Feb. 17.—President Taft's reply to Madero's appeal to withhold American intervention in Mexico, sent by telegraph, was made public by Secretary Knox today as follows: "From your excellency's telegram which reached me the 14th it appeared that your excellency was somewhat misinformed as to the policy of the United States towards Mexico, which has been uniform for two years, or as to the naval or other measures thus far taken which are measures of natural precaution. The ambassador telegraphed that when you were good enough to show him your telegram to

me he pointed out this fact.

"Your excellency must, therefore, be aware that the reports which appear to have reached you that orders have already been given to land forces were inaccurate. The ambassador, who is fully informed, is nevertheless, again instructed to afford you any desirable information. Fresh assurances of friendship to Mexico are unnecessary after two years of proof of patience and good will.

"In view of the special friendship and relations between the two countries I cannot too strongly impress upon your excellency the vital importance of early establishment of that peace and order which this government

has long hoped to see, both because American citizens and their property must be protected and respected and also because this nation sympathizes deeply with the afflictions of the Mexican people.

"In reciprocating the anxiety shown by your excellency's message I feel it my duty to add sincerely and without reserve that the course of events during the past two years culminating in the present most dangerous situation creates in this country extreme pessimism and the conviction that the present paramount duty is the prompt relief of the situation.

"Signed:  
"WILLIAM H. TAFT."

### MORGAN ILL, IS REPORT FROM EGYPT

Noted Financier Has Attack of Acute Indigestion.

LONDON, Feb. 17.—J. Pierpont Morgan has been taken suddenly and seriously ill at Cairo, Egypt, according to a dispatch from Rome to the Exchange Telegraph Company.

The dispatch adds that Morgan yesterday being brought back to Naples on board the steamship Caronia and that he is accompanied by two physicians and two nurses.

The report of J. P. Morgan's ill health, given out by the Exchange Telegraph Company, has not been confirmed or even mentioned through any other news source.

#### ACUTE INDIGESTION.

NEW YORK, Feb. 17.—From authoritative private sources it is learned that Morgan had an acute attack of indigestion three or four days ago, but it passed off and he now is in his usual health. He is leaving Alexandria today on the Caronia for Naples, where he is due on February 28. He expects then to take his usual journey up through Italy.

J. P. Morgan Jr. received today a cablegram from his father at Alexandria, Egypt, saying that he had so far recovered from an attack of acute indigestion he suffered recently that he had decided to return to Cairo and not go to Europe, as at first planned.

An active member of J. P. Morgan & Co. affirmed that Mr. Morgan had an acute attack of indigestion Tuesday or Wednesday of last week and added that J. P. Morgan Jr. had on Saturday re-

### Root's Amendment to Canal Bill Tabled

Senate Committee on Canals Rejects Opposition Measure to Free Tolls.

WASHINGTON, Feb. 17.—Senator Root's proposed amendment to the Panama canal law to repeal the provision giving free passage to American coastwise ships was rejected today by the Senate committee on inter-oceanic canals. A motion to table it carried 17 to 3, Senators Brandegee, Page and Percy opposing.

The decision of the committee, it is believed will prevent action on the Senate at this session. No report will be made and there will be no opportunity for supporters of the Root amendment to put in a minority find-

### MOBILIZATION OF 2000 JACKIES IS OFFICIAL ORDER

"Present Paramount Duty Is Prompt Relief of Situation," Says Taft in Note

Fighting Is Resumed Following Armistice; Strict Censorship of News Maintained

SAN ANTONIO, Tex., Feb. 17.—The Third Cavalry at Fort Sam Houston was ordered from Washington today to hold itself in readiness to entrain for Galveston, prepared for foreign service.

#### TO BE PREPARED.

WASHINGTON, Feb. 17.—No official explanation of marching orders to the Third Cavalry at San Antonio was obtainable, but it was plain the War and Navy Departments were working together to put their forces in a further state of preparedness.

#### MOBILIZE 2000 MARINES.

PHILADELPHIA, Feb. 17.—It was reported at the Philadelphia navy yard this afternoon that orders had been issued for the mobilization of 2000 marines to be drawn from the several naval stations on the Atlantic coast. Reticence concerning the order prevails at the yard.

#### TO FORM CAMPS.

WASHINGTON, Feb. 17.—The purpose of the mobilization of marines at Philadelphia which began today is to concentrate 2000 of those troops at Guantanamo. The transport Meade is to sail with 1200 as soon as she can be loaded; the other 800 are to sail on the naval transport Prairie.

Marines from the Washington barracks are to join those from Norfolk, Philadelphia, New York and Boston. Official announcement of the movement says the purpose is to form a marine camp at Guantanamo in connection with the operations of the Atlantic fleet, but it is generally understood to be a movement of preparedness in connection with the Mexican situation.

Sending the Meade to Philadelphia leaves the transports Kilpatrick, McClellan and Sumner provisioned and ready for the transportation of the First Brigade of the First Army Corps.

The dreadnaughts Vermont and Nebraska, with Rear Admiral Fletcher aboard the Vermont, put in at Vera Cruz today at 8 a. m., bringing the total number of United States warships there up to three and the force of jackies, officers and marines available for landing up to 2500.

#### DEVELOPMENTS OF DAY.

Developments in the Mexican situation today were in brief: Fighting was resumed in Mexico City between the Madero and Diaz forces behind the veil of a rigorous censorship which cut off news dispatches and limited official ones.

President Taft replied to Madero's plea for non-intervention, saying no orders for landing American troops had been given; pointing out "the vital importance of the early establishment of

### Slide That Kills Miner Cheats Him of Fortune

MANHATTAN, Nev., Feb. 17.—Forty tons of rock buried Alexander Hubley here today and cheated him of a fortune. The slide that crushed him laid bare a body of rich ore. For two years Hubley had been working alone and undiscouraged on a lease in which he had faith.

### Gas Blows Up Church and Injures Twenty Members

KANSAS CITY, Mo., Feb. 11.—Twenty members of the congregation of the First Methodist church South, at Oak Grove, 25 miles east of here, were injured tonight when a gas leak in the basement of the church, Rev. J. A. Jester, a retired minister, acting as custodian of the building, probably will die. Half dozen others are in a serious condition. Soon after services were begun the smell of escaping gas was noticed in the church. Jester, with a lantern, went to the basement to find the leak. The explosion demolished the interior of the building.

### Suffragettes Begin Hike in Snowstorm, Amid Cheers

PHILADELPHIA, Feb. 17.—Refreshed by a good night's sleep at one of the prominent hotels, the "on to Washington" army of suffragettes began their 14-mile hike to Chester, Pa., today in a snowstorm. Headed by a newsmonger, "General" Rosalie Jones' army marched out of the hotel in single file, while hundreds about the place cheered and taking the number of the march, the suffragette army.

# TIME TO INTERVENE IN MEXICO

**T**HE time for intervention in Mexico has arrived. President Taft has temporized with the situation until it has become intolerable. It has reached such an acute stage that our government must act with promptitude and decision or lose prestige and perhaps become involved in serious complications with European powers over the maintenance of the Monroe Doctrine. The policy of hands off has proved an ignominious failure. The condition in Mexico is worse today than it has been at any time since Madero began his insurrection against Diaz. Americans in Mexico have only the pretense of protection in a few places; they are plundered and outraged, murdered and imprisoned, and threatened with massacre if our government intervenes to protect them.

Madero's repeated promises have proved utterly worthless. His actions belie his words. He appeals to President Taft not to intervene, saying he has control of the situation. We know that is a lie. He says he is giving protection to all foreigners who rely upon his pledges and he stations batteries around the British, American and German legations to fire on the rebels and draw fire on the non-combatants who have sought shelter in the embassies.

He warned all foreigners to remove themselves from the danger zone, and gave them one hour to get away, having first stationed his troops to bring them directly in the line of fire.

All over Mexico Madero's adherents are stirring up the populace to hostile acts against Americans, spreading the story that the United States is supplying the rebels with money and munitions to overthrow the government and create a pretext for invading and making conquest of the country. As a result Americans are insulted and assaulted in towns far distant from the scene of conflict. Even officers in the uniform of the United States navy have been attacked in Mexican ports. The assailants are Madero's supporters.

The American flag is not respected in Mexico, and it affords practically no protection to

those who are relying on it for protection. While making specious promises, Madero has deliberately maneuvered to bring Americans under fire and expose them to the vengeance of an ignorant mob which his agents have purposely infuriated against foreigners, particularly citizens of the United States.

With shameless audacity Madero falsifies facts within common knowledge. His government is a farce; he has no authority in the greater part of Mexico and his guarantees are not given in good faith and are nullified by his conduct and the conduct of his agents.

How long is the United States to be thus mocked and shamed? How long is the American flag to be a flaunting lie in Mexico?—an object of derision to half-clad mestizos and bandit chieftains, and a vain symbol to those who have deemed themselves safe under its folds? How long will the governments of Europe permit this condition to continue? How long can they be expected to respect the Monroe Doctrine when it has ceased to have any vitality or afford any security to European subjects who have been left under the guardianship of the United States? How long can our government maintain its standing among nations when it permits its own citizens to be robbed, murdered and outraged with impunity?

The United States does not protect the flag over its own embassy. Madero's soldiers have invaded the American embassy and used it as a defensive fortress, turning the occupants into the streets to shift for themselves. Madero says he will protect them, but all the protection he gives is an order to get out of the way and take care of themselves any way they can. He takes their arms away from them so that they cannot protect themselves from assassins and marauders. He renders them completely helpless and then drives them about like sheep in a city racked with conflict and swarming with cutthroats and thieves seeking opportunities for rapine and loot.

The situation in the Mexican capital is the culmination of a year and a half of internecine

strife. Events have proved that the Mexican people do not want Madero at the head of their government. The Senate has asked him to resign. The rebels have attacked him in his own capital and his government is but the shadow of an irresponsible military dictatorship. He has no ability to redeem his promises if he would and would not redeem them if he could. He is sworn to his own people as well as the foreign governments. There will be no peace in Mexico as long as he remains at the head of a nominal and impotent government, which is powerless to keep its engagements with foreign governments or enforce its authority. As long as he persists in holding the office of president the country will be torn with intestinal strife and the lives and property of foreigners kept in peril.

Citizens of the United States have invested millions of capital in Mexico under treaty guarantees of protection. The value of those investments is being destroyed and Americans hunted from the country like wild animals. Madero's government cares nothing for guarantees and the only dependence Americans in Mexico have is in the power and good faith of the second party to the contract—the United States. Shall that fail them also? Shall our government remain deaf to the cry of its wronged and outraged citizens? Can it remain deaf and supine and retain its title to respect and its claim to loyalty?

Up to this time we have opposed intervention, hoping against hope that order would be restored in Mexico and the wrongs inflicted on American citizens redressed and indemnified. But hopes are vain in the present posture of affairs. The situation grows worse instead of better, and as we have declined to recognize the rebels as belligerents we can only look to Madero for redress. As well look to the wind. What do we get from Madero? Lies and more lies, empty promises and covert incitements to further outrages. It is time for all this to end. It is time the United States reached a strong arm into Mexico for the protection of its honor, its flag and its citizens. The policy of non-intervention is a failure.

## GOLD-BEATER'S SKIN

Gold-beater's skin is a delicate membrane from the large intestine of the ox; the outer or peritoneal membrane is used for this purpose. The intestine is first subjected to partial putrefaction, by which the adhesion of the membrane is sufficiently diminished to permit of their being separated. The separated membrane is then further cleaned from adhering muscular fibers, dried, beaten and pressed between paper, besides being treated with alum, jelutina and white of egg, the object of which is to obtain the pure continuous membrane free from grease and impurities. When thus prepared, gold-beater's skin may be beaten continuously for several months with a 12-pound hammer without material injury. The intestines of 500 oxen are required to furnish the 500 leaves that form one packet or "mold," as it is technically called.

The gold is first cast into oblong ingots about three-fourths of an inch wide and weighing 2 ounces. The ingot is flattened into a ribbon about one eighth of an inch in thickness by passing it through polished steel rollers. This is annealed or softened by heat and then cut into pieces 1 inch square. Six of these are placed between leaves of vellum or tough paper, each piece of gold in the center of a square leaf, another placed above, and so on until the pile of 500 is formed. This

## 20 YEARS AGO IN OAKLAND

L. Mannahan, a boy of 13, is missing from the Ross House on Ninth street.

The Fourteenth annual ball of the Oakland Verein Eintracht will take place in Germania Hall tomorrow evening.

The directors of the Alameda County World's Fair Association met in adjourned session this afternoon. There were present President Layman, and Directors Wetmore, Smith, Woodward, Lyon and Manager Colquhoun.

Last evening at Grand Army Hall, Appomattox Corps No. 5 tendered a reception to Department Commander Fuller and staff, consisting of T. C. Mastellar, Adjutant General; Quartermaster General Wiggin and Department President of the Women's Relief Corps Mrs. L. Southworth of Stockton.

Track laying was commenced this morning by the holders of the Grossmeyer franchise for an electric road on Twelfth street and a silver spike was driven to commemorate the occasion.

Telephones that had been installed in the county court house were ordered removed after formal motion by Supervisor Plunkett as useless. The supervisors did not know that they had paid for the telephones one year in advance and the contractor, after removing the phones, refused to install them again until he had been paid for the service.

## BEER IN WASHINGTON

According to the new regulations of the commissioners, or the excise board, or whatever limb of district sovereignty it was that promulgated them, it is now fashionable to carry your beer home in a paper bag. If the ordinary paper bag will not hold the beer, the human stomach will, and, recognizing this great physiological principle, the authorities have given official sanction to "human packages." It is recognized as the right of a human being to wrap himself around a quart of beer and take it home. Should he be unable to take it home because of unseaworthy legs, the law specifically provides that a wagon with a gong on it shall be called in order that the traveler may be taken by Samaritans in blue suits to the comfortable station house.

Since beer may be provided for the "growler," if the person desiring beer does not wish to carry the "package" inside his vest, he has the right to have it put up in a glass jar, just as his grandmother used to put up preserves before the ranning trust drove her out of business. It is doubtless on the theory that beer and other alcoholic beverages are in the nature of preservatives, closely allied to the 57 varieties of the "preserve" family, that the glass jar has been decided upon as the solution of the "growler" difficulty. It should be understood,

## SCHLEY WAS SCARED

The late Admiral Schley admitted in conversation with me one afternoon, sitting on the veranda of an Atlantic City Hotel, that the first time he was under fire he was frightened almost to death. "I was in the line of battle," he remarked, "and I was in the line of battle." "When Admiral Farragut at Mobile Bay boarded my ship I was a young officer," said Admiral Schley, "and in the height of the battle the captain of my vessel was killed. I suddenly found myself face to face with a situation which for the moment seemed to take away all of my nerve."

"I was in a moment elevated to the command of a battleship. In actual command, I had been unmoved by the subsequent. If I had been unmoved by the subsequent, I was almost terrified at that instant. In the midst of my predicament—for that is what it

The ball will start rolling at the Baby Hospital on Thursday night, and other affairs will follow thick and fast as the days go by. Club women are eagerly awaiting the opening of the convention tomorrow, when the three days' session at the Hotel Clubhouse will be begun. Representatives from the clubs of the Alameda district will be present and matters of vital interest to the women's clubs will be taken up. A number of interesting programs on different subjects have also been arranged for, among them the talk by Louis Levy on the Panama Canal, illustrated with a large number of specially prepared slides, which is scheduled for Wednesday night.

Later in the week an important social event will be the wedding of Miss Bernice Broun and Charles LeRoy Butler, which will take place Thursday evening in Plymouth Congregational church. Miss Helen Marjorie Deakin will be wedded to Charles LeRoy Butler on Wednesday night at the home of her sister, Mrs. George Hill, in Alameda.

AFFAIR FOR TRAVELER.

Mrs. James Scott entertained a number of the belles of the Emerald city at her home in Alameda last week in honor of Miss Alice Baker, who is soon to leave for a trip to the Orient. Miss Baker will be accompanied by Miss Elizabeth Pedlar of Washington, D. C., and they will join Miss Baker's brother, Carleton Baker, in China. Baker is the United States consul at Chungking. Among the guests at Mr. Scott's dinner were Mrs. Alice Hill, Miss Charlotte Brush, Miss Genevieve Pratt, Miss Helen Van Winkle, Miss Mae West, Mrs. J. E. Baker, Mrs. Willis T. Perkins, Mrs. Franz Coloschonn and Mrs. Walter Garrett.

DANCE AT HILLSIDE CLUB.

Miss Anita Shea was hostess recently at a delightful dancing party at the Hillside Club in Berkeley, entertaining about seventy of her friends in a delightful manner. Miss Shea is a recent graduate of Miss Barker's school in Palo Alto, and is the daughter of Mr. and Mrs. L. W. Shea of Berkeley. She is often included in the gayeties of the debutante set on both sides of the bay.

TO VISIT NEW YORK.

Among local folk who are planning a trip to New York are Miss Harriet Sargent, who will leave for New York about the middle of March, according to present plans. She will visit her sister, Mrs. Charles Livingston Acker, where she will be remembered as Miss Laura Sargent, and whose wedding took place last year at the Sargent country home at Carmel-by-the-Sea. Mr. and Mrs. Acker went East immediately after the wedding and have since been living in New York. Miss Sargent will spend about two months with them.

STUDIO TEA FRIDAY.

Miss Phyllis Partington, the former Oakland girl who is slinging the prima donna role in "Gypsy Love" in San Francisco, will be the guest of honor at a studio tea on Friday afternoon for which the Misses Blanche and Miss Gertrude Partington have issued cards. The Partington home was formerly at Third and East Twelfth streets, Alameda, but has since been moved to the Havens family home at the corner of Third and East Twelfth streets. A representative attendance is expected at the affair, which will be held in the studio of Miss Partington. A number of friends of Miss Partington will enjoy greeting her on the pleasant occasion of her return as a star.

LUNCHEON AT HOTEL OAKLAND.

Miss Grace Hillborn entertained about a score of prominent matrons and maids of the smart set around the bay at an elaborate luncheon in the tan and gold dining room of the Hotel Oakland. After a "delightfully appointed" luncheon the guests adjourned to the English room, where a bridge was a diversion of the hour. COLLEGE ROMANCE.

Miss Higgins graduated from the University of California with the class of 1911 and was a member of the Alpha Xi Delta society and prominent in society and dramatic circles while there, and was also honored among the membership of the Prastonian and Mack and James societies. She was one of the staff of the Occi-

WOMEN IN THE NEWS

HEIRLOOMS STOLEN FROM MRS. FRANK PRESTON

Mrs. Woodrow Wilson to Exhibit Paintings; Has Many Canvasses.

**S**AN FRANCISCO, Feb. 17.—Jewelry and other articles belonging to Mrs. Frank Preston and valued at \$1500, were stolen by burglars, who broke into her rooms at the Rockingham, a fashionable apartment house at 241 Bush street, Thursday night, while Mrs. Preston and other members were attending a theater.

Mrs. Preston was formerly the widow of the late Frank Norris, well known author, and is a sister-in-law of Mrs. Worthington Ames and Mrs. Willard Brown. Among the articles taken were several heirlooms that were highly prized for their origin and associations.

To Show Paintings

**PHILADELPHIA**, Feb. 17.—An exhibition of paintings in oil for Mrs. Woodrow Wilson, consisting for the most part of landscapes done at and around the Princeton home of the President-elect and Mrs. Wilson, will be opened at the galleries of Arts and Crafts guild next Wednesday. There are more than twenty-five pictures in all.

Mary Von Dies

**SAN QUENTIN**, Feb. 17.—For the second time Mary Von was released from San Quentin prison yesterday and this time she will not return. Twenty-five of her seventy-two years were spent within the prison walls and she called the place her home. She was paroled in 1911, and went to live with relatives in Los Angeles. She returned to the prison on May 14, last, sick and fatigued, and said, "I've come home to stay until death."

The woman was committed from San Francisco for murder. Relatives have been notified of her death.

Woman Kills Self

**EUREKA**, Feb. 17.—The body of Mrs. Charles Monahan, wife of a well known Humboldt business man, was found yesterday on the ocean beach opposite this city. Death was by drowning. Mrs. Monahan's brother and father committed suicide within a few months of each other.

Japanese Brides

**SACRAMENTO**, Feb. 17.—Of the 31,270 persons married in California last year, 29,832 belonged to the Caucasian race.

Japanese brides numbered 998 during 1912, or 2.9 per cent of the aggregate for all races. The percentage of Japanese brides in 1911 was 1.9 per cent.

Of the 998 Japanese weddings, 387 took place in San Francisco, where the little brown men from all over the state gather to await the arrival of Asiatic liners bringing groups of "picture brides" from the flower kingdom.

Of the 29,832 Caucasian brides of 1912 in California, 11,203, or 37.6 per cent, were native daughters, while 12,713, or 42.6 per cent, were born in other states. Almost 20 per cent, or 5,916, were born abroad.

Writers in Parade

**WASHINGTON**, Feb. 17.—One of the features of the suffrage parade on March 3 will be the presence among the massed "petition in petticoats" of women writers, famous throughout the world.

These women include Owen Kildare, otherwise Mrs. Letta Kildare Ames; Mrs. Selden Day, wife of Colonel Day, U. S. A., known to readers as "Mrs. Helen H. Gardener"; Miss Mary Johnson of Richmond, Va., who wrote "To Have and to Hold"; and "John Oliver Hobbes," who, among his intimate friends, is just Alice Lee Moulque.

And "Owen Kildare" gives us assurance that among the American suffragettes, the pen is deemed far mightier than the sword or the brickbat. Mrs. Adams is indignant at some wild statements of the "antis."

"It is shameful—it is scandalous," she said yesterday, "the things they are saying about the movement and its leaders in this country."

One anti-suffragette has just declared that the women supporting the movement are Socialists.

"Socialists! Just think of that! I wonder if it is pleasant to include Mrs. O. H. P. Belmont and Mrs. L. C. Landon, wealthy men who are ardently with us?"

Row Over Women

**FRESNO**, Feb. 17.—Frank Comita, a Mexican, living in Fresno, was shot twice yesterday by a woman, who was identified as the daughter of a prominent local dealer, foreman of a gravel pit where Comita had applied for work. The trouble is said by Candelo to have started over a woman. Comita was wounded by a shotgun, once in the arm and once in the side, and may die. Both men were transferred to Fresno, but the woman was transferred to Madera for arraignment.

and Mrs. Louis Brownstone, Mr. and Mrs. A. Melville Dollar, Mr. and Mrs. T. Green, Mr. and Mrs. Melville Herzog, Mr. and Mrs. Hiram J. Johnson Jr., Mr. and Mrs. John D. Savage, Mr. and Mrs. Henry Ward, Mr. and Mrs. George Harold Ward, Mr. and Mrs. Edgar Ward, Mr. and Mrs. George Youmans, Miss Anna L. **ENGAGEMENT ANNOUNCED.**  
At a tea given at the home of Mrs. Mary Long Saturday afternoon the engagement of her daughter, Miss Mary Long, to Mr. A. L. Martin of Oakland, was announced. The bride-elect is prominent in musical circles in this city. Martin is a young business man and the son of Mr. and Mrs. A. L. Martin of Oakland.

THE UP-TO-DATE WOMAN

By LILLIAN RUSSELL

**T**HERE is a difference between the intelligent woman and the intellectual woman. Every woman is intelligent in the real meaning of the word, endowed with understanding, clever, acute and discerning. If she realizes that fact she can by study and application become intellectual, which means acquired knowledge, sense, ability, talent and metaphysics. Many women are intellectual, but all women are intelligent. It is simply a matter of how they direct their intelligence whether they become anything in the world or just remain nonentities. The modern woman is a very wise one. She observes enough of life to know its teachings, she reads enough to keep in touch with the times. She gives herself time enough to contemplate and decide upon what her views are on subjects which interest her. She exercises her intelligence so much that her opinion is of value. She realizes that the cultivation of beauty of mind and body is a legitimate art. She knows that it is impossible to separate a woman from her looks. She may have a wonderful mind, be a strong suffragist, a veritable Semiramis, yet she still must retain and cherish her beauty of face and form.

There are few beautiful dolls left in the world. The clinging, irresponsible doll wife is no longer a mincing, chattering piece of affectation; she is now energetic, earnest and responsible. Her beauty is but one of her assets to true womanhood. The change in the education of women will develop other incarnations of beauty. The beauty of mind controls all physical loveliness. The up-to-date beauty takes exercise. She is no longer delicate, she has muscles which strengthen resistance, mental and physical. She is a joyful companion, because she is conversant with what is going on in the world of which she is a part—a most powerful part. Such women are far more capable of devotion to home life than the nonentities who do not realize that they have intellect. Such women make better mothers, for they have a method of action in bringing up children which prevents the children from growing beyond them. They grow in advance of the children. They are prepared to answer questions—in fact, they anticipate.

There is nothing more sad for child or parent than the moment when the child asks a question and the parent is obliged to say: "I do not know." The up-to-date woman must know. The brain of woman must contain ideas and she must visualize them. She must come in contact with life. Thus her intelligence will give to her countenance a beautiful expression. Her body, thanks to physical exercise, will be harmoniously beautiful, her outlook upon the world will reveal a deep spiritual life. Her grace will be blended with strength. She will be divine in her dispensation of noble joys. Remember, the up-to-date beauty knows that it is her duty to make life beautiful by refining and elevating the mind which is the intelligence.

Answers to Queries

**BLUD EYES**—I am afraid there is nothing that will make you stop growing. Being tall is nothing to be ashamed of. You should be glad that you are tall and not short and stout. Unless you have some chronic ailment it is much easier to put on flesh than to take it off. Get plenty of fresh air, eat plenty of nourishing foods, avoid all trying work, sleep all you can. Arrange your life so that you will get the most rest for your mind and body as possible. Above all things, don't worry. There is nothing that will make you thin more quickly than worry. Think of pleasant things of life instead of the unpleasant. Sleep all you possibly can and get plenty of fresh air during your sleeping hours. I shall be happy to send you a dietary for gaining weight.

SCHOOL AND PLAYGROUND

SCHOOL VALENTINES DISTRIBUTED BY HUNDREDS

Hundreds of valentines were distributed in the public schools last Friday afternoon by the boys and girls. Home industry was patronized as the majority of the children made the valentines which were circulated in the school-room. Many elaborate placecards, which were manufactured by the pupils, were admired. Special attention was given to the completion of colors on the valentines, which displayed the intellect of the students. In all the classes of the primary and grammar schools, the children endeavored to create novelties in the valentine line. Several weeks were occupied in making the cards, which were original creations.

URGE PUBLIC SCHOOLS AS SOCIAL CENTERS

**NEW YORK**, Feb. 17.—The Russell Sage foundation, through its department of recreation, has sent letters to the heads of the various state federations of women's clubs urging them to begin campaigns at once to secure legislation authorizing the use of public schools for social centers. Mrs. Margaret Woodrow Wilson, daughter of President-elect Wilson, is interested in the movement, and is assisting in the preliminary work to secure the use of all public school buildings after school hours.

Coughs and Colds Disappear Like Magic

When the average person catches a cold, it usually takes at least ten days or two weeks to break it. Even if you consult a doctor, it takes this long to get rid of it, and when it comes time to pay the bill, you wonder how much the doctor really helped you. If you want to save this expense, if you want to get rid of your cough or cold immediately, get a bottle of Parker's Cough Syrup, and it will relieve you at once. One dose will relieve, one bottle will usually cure a cough. If after using a bottle, you are not perfectly satisfied, we will refund your money. Send a bottle at all druggists.

flesh if you will send me a stamped addressed envelope.

**W. A.**—Some people use eggs for a shampoo without adding anything to them. To do this, break two eggs over the head and rub them thoroughly into the scalp. Then wash the hair, rinsing it thoroughly. However, I shall be glad to send you formula for a shampoo that has eggs in it if you will send me a stamped, addressed envelope. I shall also send you a formula for removing superfluous hair.

**H. D. E.**—For brittle finger nails put them in olive oil or almond oil and keep them there for five or ten minutes. This will keep the nails soft. Never pull the hangnails off. Cut them when absolutely necessary with a small curved scissors. Pulling them will only make them sore and more painful than they were. I shall be glad to send you instructions for manicuring if you will send me a stamped, address envelope.

**LUCILLE**—You may eat cooked fruit with your meal, but if you are taking it for a special dietetic purpose the effect will be greater when it is taken by itself; this may be at the beginning of a meal, but preferably between meals. Often-times, when the laxative effect is not obtained from figs or apples served as dessert a great difference will be observed if the fruit is taken on going to bed, when the stomach is empty, on an hour before breakfast, a glass of cold water being added. The very worst time for eating fruit is at the end of a hearty dinner.

CHILDREN'S CLUB ELECTS PRESIDENT

Many new members have been added to the charter roll in the Intermediate Girls' Club of Rosewood Park playground, which was recently organized by Miss Winifred von Hagen. Vertura Rishel, who was elected president, is one of the most enthusiastic workers in the society, which was established for the purpose of promoting sociability among the girls between the ages of 12 and 18.

If the present plans of Miss Von Hagen are carried out, many entertainments will be given during the spring and summer months. The youngsters will soon commence to rehearse for the annual May Day festival, which will be held in Lakeside Park on Lake Merritt.

In the administration of the affairs of the club, Vertura Rishel will be assisted by Marie Edwards, Elsa Jung, Elizabeth Houghton and Thelma Rocke.

Y. M. C. A. TOURNAMENTS ARE GROWING EXCITING

The Young Men's Christian Association Business Boys' ping-pong tournament and basketball tournament for intermediates are scheduled for this week.

The "Progressives," "Victors," "Apaches" and "Arrows" found themselves on the top of their respective teams on February 1 in the inter-club competition. The contest closes in April and the contestants are becoming intense, the club having sufficient lead to feel confident of winning a pennant.

The highest point winners for February were the "Arrows" with 100 points. Vincent, Irish, Ralph Kendrick, Cecil Coker, Stanley Jones, Garret Henry, John

## "ARSON TRUST" IS NOW UNDER FIRE

Prosecutors Have Treasurer of Bankrupt Concern Brought Back for Trial.

CHICAGO, Feb. 16.—Frederick W. Buckminster, treasurer of the bankrupt Northwestern Can Company, was arrested yesterday in Windsor, Ont. Buckminster is charged with arson and the arrest was made by one of the "arson trust" investigators from the State's Attorney's office Chicago and Toledo, Ohio, detectives brought Buckminster back to United States territory and he was started at once for Chicago.

## PICTURES OF NORTH PROVE INTERESTING

Macdonough Sees Carnegie Museum Expedition in "Movies."

There are times when the job of the man behind the camera is not as soft as green soap, and when the Marathon legs must form part of his equipment in life. Such, at least, were the conclusions reached by an audience at the Macdonough, when viewing some of the fascinating motion pictures of the Alaska-Siberia series, in one of which a hungry polar bear approaches within a few feet of the operator, and the lecturer explained that the Marathon stunt performed by the camera man could not be shown, for obvious reasons.

The 6,000 feet of film shown are entrancingly beautiful, marvelously realistic and fascinating throughout. They depict the voyage of the stout power schooner, "Polar Bear," fitted out by the Carnegie Museum of Pittsburgh, under the personal leadership of Captain Kleinschmidt, to study the habits and secure specimens of the fauna inhabiting the northernmost regions of the American continent.

The photo trip begins with the inland passage of the schooner, showing the wonderful natural beauties of the Alaskan coast, the government protected seal herds and rockbirds islands inhabited only by millions of sea fowl. The trip continues to Wrangell Island, Behring Island, Nome and up to within eighteen degrees of the pole.

SHOWS MOOSE HUNT.  
The hunt of the magnificent moose, the life among the igloos of the north, the immense herds of walrus, all passes before one on the screen with a realism that is startling. But what to most was the greatest piece of camera work is the pursuit of the swimming and diving polar bear and the lassoing of its cub, the frantic efforts of the bear mother to save her young and the final capture of the cub by the tender-hearted mariners. In recognition of the mother's brave fight.

The educational features of the six reels, which are accompanied by the running comment of a trained lecturer, are many. For two hours young and old view the mysteries of the frozen North, see human and animal life at work and at play, and all of it in a manner that twenty years of study and miles of text books can not impart. The pictures will be shown again tonight and all week.

"UNION DEFENDER'S DAY."

CHICAGO, Feb. 17.—Lincoln's birthday anniversary hereafter will be celebrated by the Illinois Sons of Veterans as "Union Defenders' day," according to an announcement made last night, following a meeting of three of the Illinois camps. The purpose of the change is to make the day more of a completely patriotic celebration.

## BABY SNAKES IN ZOO ARE DEADLY

75 Tiny Reptiles to Have Venom Removed at Bronx.

NEW YORK, Feb. 17.—Seventy-five baby snakes of the species known as the lance-head, born in the Bronx Zoo yesterday, are gladly welcomed although they are the most deadly reptile known. Since the discovery that the venom of the lance-head had been marvellously beneficial in treating insanity and other brain troubles when scientifically used, efforts have been made to breed the reptiles here.

The success now attained is the result of several years' work, during which many of the reptiles have been taken alive in the island of Trinidad, at the peril of many naturalists, only to die soon after being brought here.

Experts will extract the virulent venom from the seventy-five baby lance-heads as soon as they are a few months old. The method is to pin the head down with a forked stick and hold before it a glass topped with cheese cloth. The snake furiously buries his fangs in the cloth and spits the venom into the glass receiver. About a pound of it, it was said at the zoo, "would kill the whole Mexican army."

## MAKES DIFFERENCE WHERE GUN POINTS

Hotel Company Objects to Location of Government Battery.

WASHINGTON, Feb. 17.—The much disputed right of one aviator to fly over another's land may be touched upon, if not specifically considered, by the Supreme Court for the first time shortly after the convening next week. The point promises to arise in one of the most novel cases to come before the court in years. It embraces the question of whether the government has "taken" property, within the meaning of the constitution, by firing cannon over it as a practice exercised in time of peace.

The case concerns the operation of Battery Bohlen in Maine, near Portsmouth, N. H. The Portsmouth Harbor Land and Hotel Company owns a strip of land along the seashore on which a hotel and cottages have been built as a summer resort. The battery is directly back of the land with only a narrow frontage on the seashore. Should shots from the fort be fired over the government's own property, it is claimed they would come dangerously near either a lighthouse or the populous New Hampshire shore. The company asserts that the government not only has shot across its land, making it undesirable for a summer resort, but that shooting across its land is the only practical way the guns may be discharged. Under such a situation it is claimed its property has been "taken" by the government. The company lays claim to dominion above the surface of the land as well as under it.

## ALASKA TRUST DECISION IS MATTER OF PROTEST

WASHINGTON, Feb. 17.—The Department of Justice is making a protest to the Supreme Court against the decision of the United States District Court of Alaska, which set aside indictments against an alleged Alaskan "transportation trust" on the ground that before the federal government could indict for alleged discrimination, the question must be passed upon by the Interstate Commerce Commission.

The issue is new and regarded as extremely important. The Pacific & Arctic Railway & Navigation Company, Pacific Coast Steamship Company, Alaska Steamship Company, Canadian Pacific Railroad Company and others were indicted under the Sherman anti-trust and interstate commerce laws for alleged combination and discrimination against "Independents."

## STRONG ARM THUG CAUGHT BY POLICE

SAN FRANCISCO, Feb. 17.—When a hold-up man attempted the strong-arm act on a victim on the waterfront this morning, he made the mistake of picking out a well-lighted thoroughfare and the sidewalk in front of a restaurant for his work. This caused his arrest, and he is now at the city prison charged with grand larceny. The victim is John Mattson, 247 Stewart street, who was shoved in a doorway of the cafe at 152 Commercial and his watch taken. ## CONFESSES KILLING OF POLICEMAN

Robert Webb, Alleged Auto Bandit, Admits Murder; Asks Mercy.

CHICAGO, Feb. 17.—Robert Webb, highwayman and leader of the automobile bandits, Chicago's most dangerous criminal, according to the police, confessed last night that he shot and killed Policeman Peter Wart several weeks ago. Webb was captured Friday. The confession was made to State's Attorney Hoyne after forty-eight hours of stubborn denial by Webb.

Webb's confession was made under a promise of clemency by State's Attorney Hoyne. Mr. Hoyne said that he promised the bandit he would not ask the death penalty for him because he found that Webb was driven to his criminal courses largely because he was the victim of "loan sharks."

"This man is the only one of the automobile bandits who ever tried to support himself by working," said Mr. Hoyne. "It was only after he got in the hands of 'loan sharks' that he gave up attempts to earn an honest livelihood. He always had good references from his employers. Many 'loan shark' receipts were found among Webb's papers."

Webb gave the police the names of between fifteen and twenty automobile dealers in Mississippi, he said, and later dealer in Mississippi he said "and later into Oklahoma where I made quite a lot of money selling to Indians. After I sold out I went to Fort Worth Texas and then to Dallas and Galveston New Orleans and Mobile. From there I came back to Chicago."

Robert Webb told State's Attorney Hoyne that the right name of James Seymour was James Seymour. He said that Seymour's home was in Hamilton, Ont., and that he had been arrested in Oklahoma and was now wanted in Iowa. Perry confessed several robberies which he said were committed in company with Webb but he never gave any indication that Perry was not his right name.
